

The Southeastern Librarian

About the Journal

The Southeastern Librarian (SELn) is the official publication of the Southeastern Library Association (SELA). The quarterly open access publication seeks to publish articles, announcements, and news of professional interest to the library community in the southeast. The publication also represents a significant means for addressing the Association's research objective.

The quarterly issues contain peer reviewed articles, book reviews, as well as SELA, state, and library personnel news. The journal continuously accepts submissions for publication consideration. Those who submit do not have to be members of the Southeastern Library Association.

Journal Acceptance Rate

The *SELn* has an acceptance rate of 63%.
